

Scanning The Horizon

The Sixth Saudi Global Conference
for Occupational Safety and Health **2024**

“The development approach in the Kingdom aims to create a comprehensive and sustainable renaissance, with its core and goal being the human who will lead the development of the present and shape the development of the future”

CUSTODIAN OF THE TWO HOLY MOSQUES

KING SALMAN BIN ABDULAZIZ AL SAUD

May Allah protect him

“The future of the Kingdom is promising and hopeful, and our beloved country deserves more than it has achieved. We have capabilities that we will enhance people’s role and increase their contribution to shaping this future”

His Royal Highness the Crown Prince, Prime Minister

**MOHAMMED BIN SALMAN
BIN ABDULAZIZ AL SAUD**

May Allah protect him

His Excellency Engineer:

Ahmed bin Sulaiman Al Rajhi

Minister of Human Resources and Social
Development, Chairman of the National Council for
Occupational Safety and Health

“Building on the continuous care and support provided by the government of the Custodian of the Two Holy Mosques for the development of the labor market, in line with the goals of Vision 2030, the Ministry of Human Resources and Social Development, represented by the National Council for Occupational Health and Safety, seeks to enhance awareness among employers and workers in the private sector in the field of occupational health and safety through the organization of the 6th Saudi International Conference on Occupational Health and Safety 2024. This is a part of the National Strategic Program for Occupational Health and Safety, The conference aims to promote the concept of a safe working environment to create an appealing and accident-free work environment”

Numbers and Achievements of the Previous Conference

The 5th Saudi International Conference on Occupational Health
and Safety 2022, coinciding with the Fourth Arab Conference

Conference Goals

01

Review and exchange of local and global safety and occupational health experiences and best practices to enhance the culture and awareness within the work environment.

02

Promoting a culture of safety and occupational health in the workplace and highlighting national efforts contributing to achieving the goals of Vision 2030 in the Kingdom.

03

Shedding light on modern technical and technological trends in the field of safety and occupational health, and encouraging research and studies in the field of occupational safety and health.

04

Transferring the Kingdom's legislative, regulatory, and executive experience in occupational safety and health at both the local and global levels.

Our Audience

Specialized organizations and entities in occupational health and safety at the local and international levels

Experts and academics in occupational safety and health.

Employees in both the public and private sectors.

Students and trainees in universities, colleges, and institutes.
